

Journal of Soil Science Society of Iran (JSSSI)

Traders Newsletter

May 2022

Dear Colleagues and Researchers, Greetings

The open access Journal of Soil Science Society of Iran (JSSSI), invites you to submit your valuable

research manuscripts including:

**Original Research Papers

**Review Articles

**Short Communications

Benefits of Authoring in JSSSI:

- o An easy-to-use manuscript submission system
- o Rapid, easy and high quality of publishing
- o No charge for article processing
- o International Editorial Board Members experts in different disciplines
- o Quick, efficient publication with full transparency on all publishing metrics
- o Free Certificate to all the paper authors (On-Demand)
- o Online tracking of submitted articles

If You Have any Query or Concerns,
Please Feel Free to Contact:

All of Soil Science Discipline Including:

- ◇ Biology
- ◇ Chemistry
- ◇ Environment
- ◇ Genesis
- ◇ Physics
- ◇ Salt Affected Soil
- ◇ Soil Water Plant Relationship

Submit your article to:

The main purpose of this journal is to expand and enhance research, develop knowledge frontiers and publish the results of soil science research and related subject areas.

Strengthening collaboration between the diverse specialties of soil as a natural resource and relation with soil scientists around the world, coordinating with researchers, experts and university students and research institutes to reach ways for managing soil degradation have been other goals of this journal.

Twice a year (bi-quarterly), this free of charge journal publishes the basics and applied scientific research manuscripts studies in all aspects of soil sciences.

Journal of Soil Science Society of Iran (JSSSI) is an English language scientific-research peer reviewed magazine. All researchers of agricultural sciences and natural resources and experts in soil-related fields are invited to submit the results of their valuable works.

The JSSSI is a collaborating task between Iranian Soil Science Society and Soil Science Department at Isfahan University of Technology and is under the supervision of the editorial board consisting of prominent national and international experts.
